Nature is a revelation of God...

Remember as a kid.....

How excited or nervous you were when you went off to camp during the summer? Or maybe as a teenager you attended a retreat far away from home (so that your Youth Director could get you away from your parents)? Even now as an

Swimming Pool

adult, do you enjoy getting away for a week-

end with friends or family (to spend some quality time together)? All these experiences are important in nurturing spiritual growth and development.

In the Bible

We see that on many occasions Jesus “withdrew by Himself”, (Luke 9:10) to be with God. In order to sharpen and maintain our focus as Christians we also need to “withdraw” to seek God.

Dorms

It is understood that this should be a vital part of our daily

experiences, but from time to time we need a place to get out of our comfort zone for the “soul” purpose of meeting with God.
